RE: Survival in the 21st Century Seminar

Dear Mike:

I want to let you know how much C-K Air Conditioning has gotten out of the seminar your organization presented to us this past weekend.

My partners and I were a little skeptical on how our field people would react to a seminar of this caliber. To our amazement we have received nothing but positive feedback all week from our people.

I have been hearing conversations around the office with regards to Being Impacted, Notice of Claim, Substantial Completion, and Warranty to name a few. Our people have gained knowledge, which will transform itself into confidence when dealing with the tough construction issues.

I know that Loweke & Brill will be a valuable asset to our company, now and in the future as we navigate the construction industry.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Chris Curtis', written in a cursive style.
