Re: Ombudsman Program

Dear Mike,

I have read Carl Thurnau's letter from State Education Department regarding your Ombudsman Program. I agree that significant public money could be saved on school construction projects. This service additionally would be very valuable in solving construction disputes. We, in the education world, all know how costly and disruptive construction disputes are during or after a project.

At this time I am not in need of your service but I would not hesitate to use this service in the future if needed.

Very truly yours,

Gary Valenti  
Assistant Superintendent for Administration
